## KAYCEE STUDENT COUNCIL

---

Kaycee Student Council held several activities during Suicide Prevention Week. One day they encouraged the students and staff to wear green (mental health ribbon color), yellow (suicide prevention ribbon color), and orange (suicide prevention representative color) for suicide prevention week to draw awareness to mental health and had a walk around the track. They even brought in their county suicide prevention specialist to speak to the students. They worked hard for a great cause!

I believe that student council helps young people build leadership skills, learn how to work as a team, listen, organize, empower, and take steps to improve the lives of those around them. The awesome thing is all these skills will benefit them now and for the rest of their lives.
